We are pleased to have discovered a new hearing instrument that gives our patients the ability to hear better in a variety of situations that haven't been available to us before. Our patients are reporting that even close friends haven't noticed their hearing aids. They feel more confident in being able to attend events and participate without the fear of misunderstanding the conversation.

In this seminar we will introduce Phonak Belong hearing instrument technology and let you ask questions about your hearing health.

Learn how the Belong line of hearing instruments will help you meet your hearing goals.

Please join us for this free Demo and Dance listen event, enjoy light appetizers compliments of Enticare and enjoy dancing your heart away while you listen to beautiful music through state of the art hearing aids. We look forward to seeing you.

*If this date doesn't work, make an appointment and receive the same information in our office.*
